

PRE-MIXED, NEVER POWDER**PATENT PENDING****MADE IN THE USA**

PRODUCT DESCRIPTION

A graphene additive for liquid cooling loops, supplied pre-mixed in a water-based carrier.
Graphene is supplied pre-mixed in a liquid carrier, never as a dry powder.

WHAT IT'S FOR

Closed-loop liquid cooling, such as data center direct-to-chip and CDU loops. Tested in your system against your own baseline coolant.

Typical uses: Engine cooling systems, industrial chillers, process cooling loops and heat exchangers.

CARRIER

Water-based: graphene pre-dispersed in deionized water.

DOSING

1% to 7% by weight, depending on the job. Ask us for a suggested starting treat rate for your trial.

HOW TO USE

1. Shake the container well before measuring.
2. Weigh the additive at the dose for your job (1% to 7% by weight).
3. Add to the coolant or heat-transfer fluid and mix or circulate until uniform.
4. Test against your baseline before production use.

PACK SIZES

SKU	Size
GI-CLT-1GAL	1 gal jug
GI-CLT-5GAL	5 gal pail

Bulk quantities on request.

STORAGE AND HANDLING

- Keep the container tightly closed until use.
- Shake or stir well before measuring.
- Avoid contact with eyes and skin. Keep out of reach of children.
- See the Safety Data Sheet (SDS) for full safety information.

ORIGIN AND COMPLIANCE

- Patent pending.
- Made in the USA by Graphene Integrations, LLC, Charlotte, NC.
- Contains no carbon black.
